

Future Environmental Teacher

Environmental Education Internship - Two interns are needed each season to work side-by-side with the Education Director and Field Trip Coordinator to prepare and facilitate our education programs. In the spring and fall, interns teach the school field trip programs, visiting classrooms and leading farm tours at Stratford. In the summer, interns act as instructors for our week-long farm camps where children aged 3-17 join us to participate in farm chores, tend the gardens, and learn about the Earth through fun and interactive activities and lessons.

Sunship Earth Internship - Sunship Earth is a new 5-day program for 5th graders. While addressing 80% of the Ohio 5th grade Academic Content Standards for Science, students learn how this very special planet, our “sunship”, operates and how we can both enjoy the ride and help keep the ship going on behalf of all the other passengers. Interns will work as crew leaders for Sunship Earth, learning and teaching the activities that comprise the program.

Future Environmental Teacher Sponsor

\$2,000 Environmental Education Intern (Fall or spring season)

\$1,750 Environmental Education Intern (Summer season)

\$1,200 Sunship Earth Intern (Fall season)
